

Enrichment analysis for Asthma

- 1, Download the Chip data related to asthma from GEO.
- 2, Collect the differential genes ($p < 0.05$, $\log FC < -1$ or $\log FC > 1$)
- 3, Intersection of differential genes

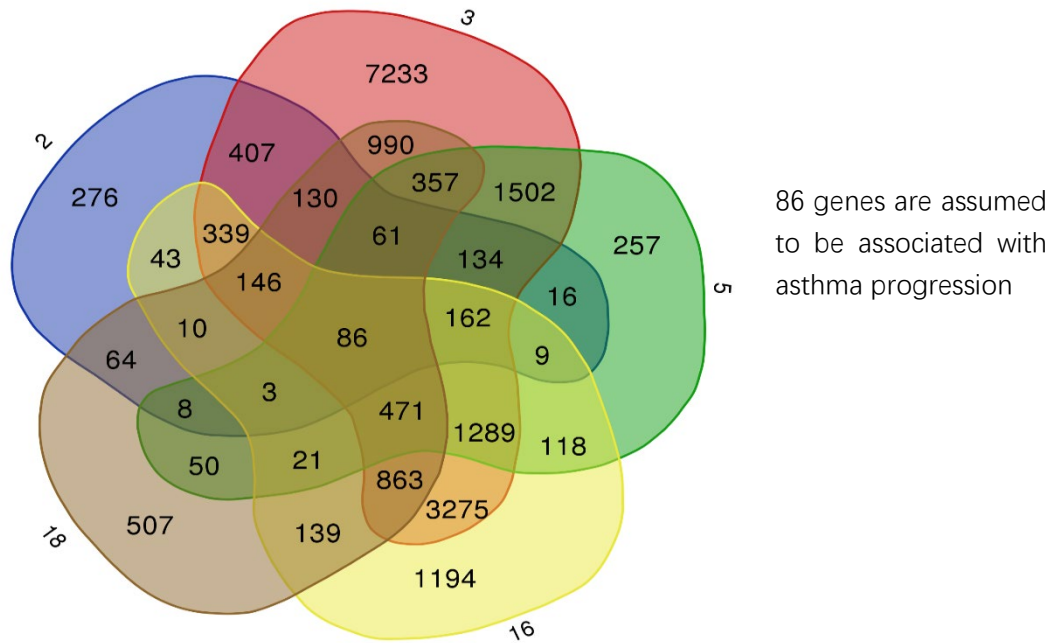

Figure 1. Intersection set of gene list.

4. Enrichment analysis (www.metascape.com)

Figure 2. Enrichment summary

Figure 3. Enriched ontology clusters. Colored by cluster ID.

Figure 4. Enriched ontology clusters. Colored by p-value.

5. Prediction of Protein-Protein Interaction (PPI) network

Figure 5. PPI MCODE components

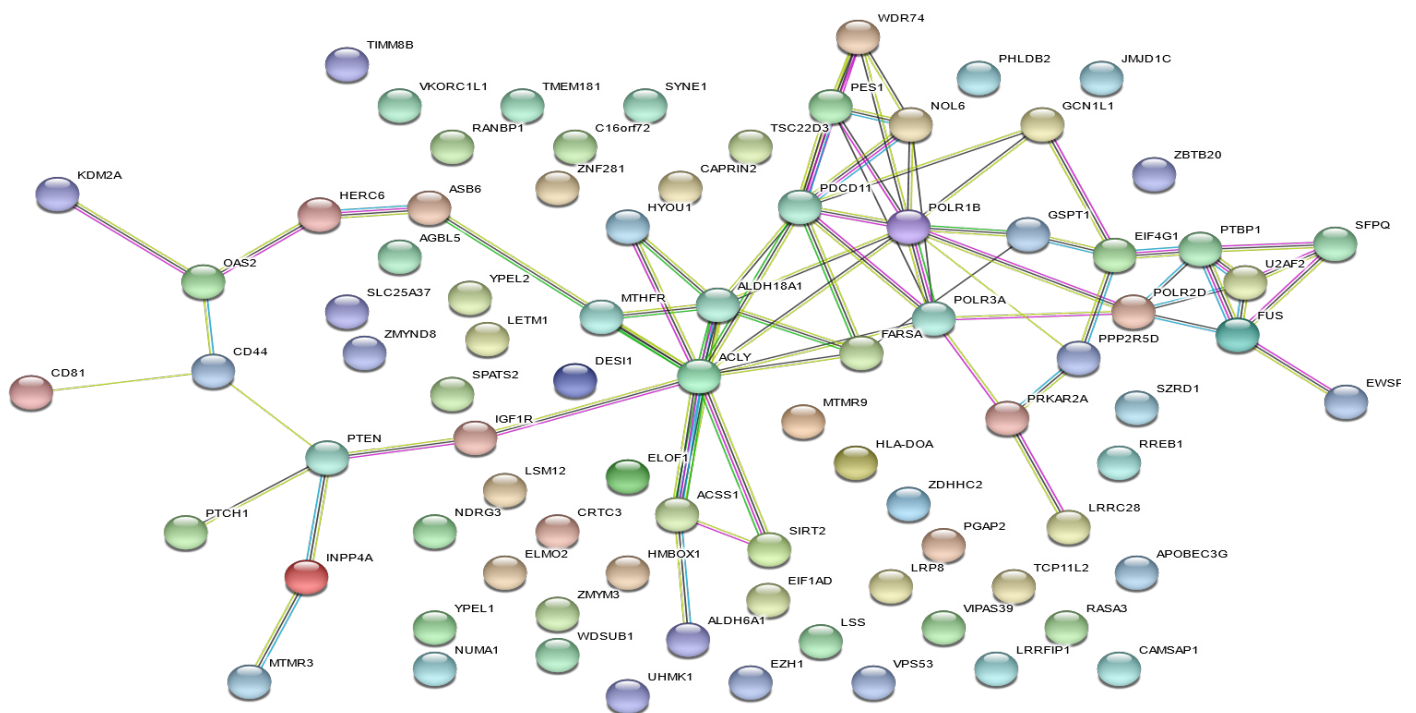

Figure 6. PPI network (www.string.com)

5. Find the Hub gene by using different algorithm (Cytoscape)
